Fabric Protocol

TA VIETNAM STANDARD FABRICS

These swatched fabrics may be used only on seating supplied from Theodore Alexander Vietnam. Within this there are no restrictions on which collection they can be applied.

There are some cases where fabrics are available in both the TAU and TAVN handles.

TA VIETNAM LEATHERS

These leathers may be used on any seating manufactured in Vietnam that allows options. There are no restrictions on which collection they can be applied.

Marked leathers may also be applied on TAU produced seating. A grading equivalency chart can be found on page 4 of this document.

TAU LEATHERS

These leathers may be used only on US manufactured seating with no restrictions as to brand. They cannot be used on Vietnam manufactured seating.

TAU FABRICS

TAU fabrics (including Althorp and Keno fabrics) are available on any US manufactured items by Theodore Alexander. Although some fabrics may have stylistically indicated brand allocations, there are no restrictions on which collection they can be applied.

TAU fabrics may also be used as special orders on any TA Vietnam produced seating that allows options. These orders will be quoted as custom items from TA Vietnam.

Theodore Alexander US is also able to provide TAU Fabrics, COM and COL on any TA in-stock dining chairs, excluding those with nail head trim. A separate price list is available on request.

Lead-times on in-stock items will be between 4-6 weeks.

TA LEATHERS

NAME	LEATHER GRADE
